* Founding Editor

**Foundation for Urban and
Regional Studies**

FURS is the charity which owns IJURR and which uses the surplus from IJURR to promote social scientific research and education in the urban and regional studies field. Its main activities are the provision of studentships to support students pursuing research degrees, the provision of grants to fund research and writing up, an annual Ray Pahl Fellowship award, and the running of an international competition for the best essay on urban and regional themes by young scholars. Studentships and research grants are particularly directed to students from developing countries and underfunded institutions.

**Studies in Urban and
Social Change**

The SUSC book series aims to advance debates and empirical analyses stimulated by changes in the fortunes of cities and regions across the world. Topics range from monographs on single places to large-scale comparisons across East and West, North and South. The series is explicitly interdisciplinary; the editors judge books by their contribution to intellectual solutions rather than according to disciplinary origin.
