The IJURR Foundation

The IJURR Foundation is the charity which owns IJURR and which uses the surplus from IJURR to promote and improve social scientific research, education and scholarship in the field of urban, rural and regional studies. Its main activities are the provision of studentships to support students pursuing research degrees and the provision of grants to fund research and writing up. Studentships and research grants are particularly directed to students from the global South and underfunded institutions.

**Studies in Urban and
Social Change**

The SUSC book series aims to advance debates and empirical analyses stimulated by changes in the fortunes of cities and regions across the world. Topics range from monographs on single places to large-scale comparisons across East and West, North and South. The series is explicitly interdisciplinary; the editors judge books by their contribution to intellectual solutions rather than according to disciplinary origin.
